

Generation Project

Are you aged 16-25 and from the Stoke-on-Trent area?

Then we have some great news - British Ceramics Biennial supported by Heritage Lottery Fund will be running FREE weekly sessions to explore local ceramics heritage.

The project will give you:

- exclusive access to heritage sites across Stoke-on-Trent
- opportunity to explore their rich collections/histories
- get hands-on finding out about traditional skills and ways of making.

Working alongside British Ceramic Biennial's Project Co-Ordinator and Artist, Emma Price, you will develop ideas for outcomes, events and have the opportunity to exhibit at the British Ceramics Biennial 2021 in September.
